## ABOUT ENACTUS

Enactus is an international, non-political, non-profit international organization established in 1975 that effectively brings students, business, and academic leaders together by channelling the power of entrepreneurial action to improve the quality of life and standard of living of those in need.

## ABOUT PROJECT PHIRBAN

- India became the second-largest producer of **PPE** after the COVID-19 pandemic, which is composed of more than **50% plastic** and is therefore difficult to decompose.
- At the same time we discovered that the female labour force participation rate was a mere **22.3%**, less than a third of the rate for males, which was **73.3%**.

To find a solution, we at Enactus Hindu came up with Project Phirban. Our project, in collaboration with the MyLoktantra Foundation, works to **repurpose unused PPE scrap to make sustainable and multipurpose mattresses and dog beds** while creating opportunities for the unemployed and unskilled women.
